## MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

## Rehabilitating the World

The Supreme Council of the League of Nations is making substantial progress with the difficult task entrusted to it of disentangling the complex races which for so long have been held subject to the Sultan under the tyranny of the despotic and murderous Turks. Europe and Asia present many international, racial and religious problems, but none quite so difficult of solution as that of the old Turkish empire. It is easy to criticize Great Britain and France because of the decision to leave the Turks in Constantinople, but it is not so easy to outline an alternative policy likely to prove successful and not provoke a still more serious situation, and one that might have far-reaching results of a disastrous character. However, the power of the Turk is destroyed, and an end is in sight to the long chapter of Ottoman misrule, rapine and murder.

Having been rescued from the domination of the Turks by the victorious British armies, Palestine and Mesopotamia have been entrusted to Great Britain to be administered under a mandate from the League of Nations, and a national home for the Jews is being established under the protection of the United Kingdom. France is given a mandate for the administration of Syria, and the United States has been asked to accept the mandate for oppressed and down-trodden Armenia. Thus to the three most powerful of the allied nations, those enjoying the most democratic forms of government, and actuated by the loftiest ideals, is given the humane and civilizing work of bringing a new era of happiness and prosperity to millions of people who for centuries have been little more than slaves, with life and property in hourly danger of extinction by the unspcakable Turk.

In this column last week reference was made to the gigantic financial problems which must be solved by the people of Canada, and it is possible that before this appears in print the budget will have been presented at Ottawa and the policy of the Government indicated as to how the national obligations are to be met. It is inevitable that there must be a further increase in taxation, and Canadians must be prepared for it. But grave as our position in Canada may be, and heavy the burdens to be borne, they are slight in comparison to those of other lands and peoples.

The German budget was recently presented to the Reichstag. The financial burden which the people of Germany must meet in some form or another this year reaches the stupendous total of \$2,500,000,000 marks, or, roughly speaking, \$13,000,000,000, or more than four times the gross national debt of Canada. Dr. Wirth, the German Finance Minister, frankly admits he is at a loss to know how the

money is to be raised or where it is to come from.

Italy is carrying an enormous debt. It was heavy before the war, and has been increased many times over. The government and people are meeting it courageously, and a loan of 20,000,000 lire has just been raised by the Italian people.

France too, has recently floated a loan among its own people of 15,000,000 francs, or an amount equal to the national debt of Canada. The French parliament is now engaged in passing measures which will promptly increase the taxation imposed on the French people.

With a national debt of approximately \$40,000,000,000, Great Britain has started on the great task of paying it off. No further borrowings will be made, but taxation is being substantially increased. This year British revenue is estimated at \$7,000,000,000, or more than double our national debt. This great revenue will provide for a reduction in the British national debt of at least \$1,000,000,000 while in 1921 it is estimated that a further reduction of \$1,500,000,000 will be made.

Canada has not yet made a start at debt reduction; on the contrary the debt is still increasing. This must stop, and the work of liquidation of the national debt begun. It can only be accomplished by this Dominion following the example of other countries—curtailing expenditures wherever possible and increasing revenues by increasing taxation. The people must be prepared for this and must accept it without any complaint. There is no other way out. The longer the debt is allowed to stand, the heavier the burden will become. People realize this in the individual affairs; they must appreciate the fact that it is equally true in their national business.

Notwithstanding the wholesale destruction of the last five years, and the enormous burdens of debt and taxation which must now be borne, the world is still the gainer, because the Great War was the operation whereby the cancer of militarism and the ever-increasing burden of military and naval armaments was cut out of the world's body. The cost of the operation must now be paid for, but the cure affected will give renewed life and vigor to the world, and, by relieving it of an intolerable burden, will ultimately add to its prosperity and the comfort and happiness of all people.

## THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Therrien, St. Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets. They soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Minard's Liniment Lumberman's Friend.

Buy Alberta Ranching Landa. A tract of land containing 3,338 acres, near Vermilion, has been purchased by the Big Bend Land & Cattle Company of Spokane, Wash., from the Vermilion Land and Ranching Company, for approximately \$130,000. The company, which operates large tracts of land in the United States and Canada, intends planting a large herd of well-bred cattle on the land this summer as well as developing part of it for grain growing.

Trumpets were in use at the time of Homer.

## CURE COWS' CAKED BAGS

With EGYPTIAN LINIMENT For Sale by All Dealers Douglas & Company, Nanaimo, Ont.

## Tractors for Road Making

Consent of Government to Use Tractors Free of Duty.

J. F. Johnston, M.P. for Last Mountain, who has had several interviews with the minister of customs in an endeavor to get the government to allow municipalities to import tractors for road-making purposes free of duty and also to allow farmers who own tractors to use them for road-making purposes, has been advised that the government has acceded to his wishes in respect to the latter.

A circular has been issued to the customs officers, which will permit farmers who own tractors which have been brought in free of duty for farm purposes to use them in road making within their own municipality.

## OH! EACH DAY A LITTLE MORE

Hurry! Let "Dandere" save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff get a small bottle of delightful "Dandere" at any drug or toilet counter. Rub a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Help your hair grow long, thick and strong, and become soft, glossy and abundant.

## The Need of Fleets

World Needs A Country That Is Prepared To Testify to Its Faith

In the League of Nations. Even after the United States had declared war on Germany there was a tendency on the part of the United States navy department—if Admiral Sims is to be believed—to allow anti-British sentiment to embarrass the close co-operation that the situation demanded. It is clear, however, that the professional rivalries of a few elderly men can no more estrange the two great English-speaking nations than can the antipathies of Irish-American and German-American politics, if the mass of the citizens in each country is determined that mutual good-will must be the basis of their international relations. What the world needs badly at the present moment is a country that is prepared to testify to its faith in the League of Nations by some overt act involving the reduction of its ability to strike at its political enemies. No nation is in a better position to do this than Great Britain, and no nation can better apply the money so saved to constructive, as opposed to destructive, effort. A comparatively large army we must have for many years to come, if we are to perform our international obligations and compel our beaten enemies to live up to theirs. Great fleets we do not now need any more than the United States needs them, and unlike the United States we cannot afford them. The traditions of the navy can well be preserved by strict attention to quality rather than to quantity. A great war between any powers, especially between Great Britain and the United States, is out of the question for another twenty years. By that time the Armadas of today will all be ready for the scrap-heap. What a pity, then, to waste the money.—The Irish Times.

## Exports From Alberta

An increase of approximately seven million dollars in exports to the United States from Alberta in 1919, is shown in the report of the United States consul at Calgary. Cattle, wool, grain, butter and furs, constituted the chief articles of export.

Imported "Your daughter has a great deal of savior faire, Mrs. Comeup." "Yes, we imported it for her all the way from Paris."—Baltimore American.

W. N. U. 1314

## To Superannuate Civil Servants

Retiring Fund Provided For in Proposed Ontario Legislation

Retirement from office of all civil servants who have reached the age of 70 years, is provided in a superannuation bill which is introduced by Premier Drury in the Ontario legislature. All employees who have been 30 years in the service, or who are over 65 years of age, may be retired either at the option of the government or themselves. Superannuation allowances to a maximum of \$2,000 yearly will be paid such retiring employees.

The superannuation fund will be made up by contributions from the civil service and the government. Employees will be required to pay into the fund a portion of their salary, ranging from 3.4 percent to 8 percent, according to age.

Employees under 26 pay the minimum and the rate increases for older employees. The government will pay into the fund an amount equal to that deducted from employees' salaries, and will pay interest upon the fund at five percent. The province will bear the cost of administration of the scheme.

## Cause of High Prices

The Cure Is Beyond the Power of the Legislators

The figures given in the Statist show that the cost of living is still increasing, and that in the cases of 45 representative commodities the present price is three times that of 1913.

In the main the rise is due to more fundamental causes, and the cure is beyond the powers of legislators. The world during the four years has devoted a great deal of its energies to the destruction of life and property. It has ceased to devote its surplus produce to new productive developments; it has used up that surplus and pledged its credit, and has nothing to show for its efforts except an escape from a political peril. Until production recovers and credit is restored, the relation between the value of money and of goods cannot begin to move back towards the normal.—The Westminster Gazette.

## SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for heart trouble, one of the first questions he asks is: "Are you short of breath?"

By the time the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, shivering, irregular heart, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mrs. Stephen Crouse, East Clifford, N.S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better almost at once. Three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Stock Raising in B.C.

Breeders of the Province Are Going In For Purebred Cattle

The breeding of purebred stock for export, is believed to be a coming industry in British Columbia. Development of this new industry is bringing new breeders into the province. New herds are being brought together, the owners of which have a guarantee that there will be an abundant market for blue-blooded cattle, not only locally and in the other provinces and adjoining states, but as well in Hawaii, Australia and New Zealand.

Several head of purebred Holstein cattle have been sent to Australia from British Columbia recently, and it is said that Australian stockmen are planning to send their representatives to Canada for the purpose of securing registered Hereford, Holstein and Jersey cattle.

Elevator at Portage La Prairie.

The Saskatchewan Elevator Company have purchased a site at Portage La Prairie to build an elevator with a capacity of a million bushels, and a four mill will be added later.

## ASTHMA

If you are an asthmatic don't imagine that you must suffer quick, sure and safe relief is at hand. It is a matter of a few days by using

## TEMPLETON'S RAZ-MAH CAPSULES

We are so certain of results we will send you a free sample of these capsules. If you are not cured within 10 days we will send you a new sample. Write to Templeton, 142 King St. W., Toronto, Ont. Sold by reliable druggists everywhere for \$1.94 a box.

## TEMPLETON'S RHEUMATIC CAPSULES

For fifteen years the standard remedy for Rheumatism, Neuritis, Gout, Sciatica, Lumbago, Neuralgia, Migraine, etc. (Prescribe them). Write to Templeton, 142 King St. W., Toronto, Ont. Sold by reliable druggists everywhere for \$1.94 a box.

## World's Wheat Supplies

Estimated at 50,250,000 Tons From 1920 Crop

According to cable advices from London, the commissioner on wheat supplies estimates the yield from Canada, Australia, New Zealand, the United States, Argentina, Algeria, Rumania and India, will be 50,250,000 tons. These figures, submitted to the British Board of Trade, refer to the 1920 crop.

The import wheat and rye requirements of the United Kingdom are given as 5,700,000 tons, and South Africa 100,000.

## Development at Prince Rupert

New York capital has secured control of the lease of the Prince Rupert dry dock and plans big development work, included in which is the construction of twenty large oil tank strainers to cost approximately \$36,000,000.

## MARTIN-SENOUR 100% PURE PAINT

Costs less than any other paint, because it covers more, spreads easier and lasts longer. It is true economy to keep your house well painted; it saves repairs and deterioration. It is the true economy to use 100 per cent. Pure Paint. "Save the surface and you save all." Paint and Varnish.

Save the surface and you save all.

## Korean Alphabet

Consists of Fourteen Consonants and Eleven Vowels

One of the first acts of Japan, upon taking over Korea, was to forbid the printing of books in anything but Japanese characters. On-mun, the script of Korea, is altogether different from the language of China and Japan, and was at first despised because it was the script of an even worse country than Korea. The script is ascribed by Korean annals to the year 1447, when the King of Korea, resolving to assert his independence by abandoning the use of Chinese writing as the official medium of correspondence, invented an alphabet to suit the special requirements of the vernacular. The Korean alphabet consists of fourteen consonants and eleven vowels. The characters are of an extreme simplicity, contrasting strongly with the complex Chinese. There are six consonants of the first and second person, the third, with relational particles, serving for both.

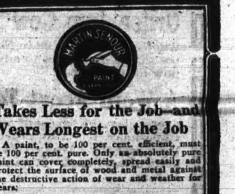

## Minard's Liniment used by Physicians

Canadian Ships Carried Nearly All Own Grain

Some interesting figures dealing with the total export of Canadian grain in Canadian ships as compared with the export in the United States vessels were given in the house in reply to a question from A. B. Copp, (Westminster). Sir George Foster said 95.55 percent of wheat exported was carried in Canadian bottoms as well as 85.94 percent of export oats, and 89.65 percent of barley.

## Prominent Britisher Buys Farm

F. J. Detmold, nephew of Lord Reading, Lord Chief Justice of England, is buying a farm in the "Blydenham" district from the Canadian Pacific Railway and will engage in mixed farming, which has made the district so prosperous and well known.

## Town of Blaimore 1920 Assessment Roll

NOTICE IS HEREBY GIVEN  
that the Assessment Roll of the  
Town of Blaimore for the year  
1920, has been prepared and is now  
open to inspection at the office of  
the secretary-treasurer of the Town  
from 10 o'clock in the forenoon to  
4 o'clock in the afternoon on every  
day which is not a public holiday  
except Saturday (and on that day  
from 10 o'clock in the morning to  
12 o'clock noon) and that any rate-  
payer who desires to object to the  
assessment of himself or of any  
other person, must, within thirty  
days after the date of this notice  
 lodge his complaint in writing at my office.

Dated this 4th day of May, 1920.  
P. W. WRIGHT,  
Assessor.

### Teachers' Salaries

The Literary Digest offered prizes  
to teachers for the best fifty-word  
paragraph explaining why teachers  
should receive higher salaries.  
Here are two of the winning stories:  
"We, the teachers, deserve a  
living wage because we are laboring  
that patriotism may walk un-  
molested throughout this land,  
that good government may be  
fostered, and that education of the  
people, by the people, for the people,  
shall not perish from the earth."

"The childhood of today is the  
government of tomorrow. The  
best possible training today is the  
only guaranty of the best possible  
government tomorrow. Such a  
training can not be given by teach-  
ers harassed by poverty. Let the  
nation assure its future and for a  
right wage its just price."

Blaimore, Alta., Thurs., May 13, 1920

### Eskimo Collection

Our most northerly neighbor, the  
Eskimo, is, according to the reports of  
various explorers, gradually dying out,  
and at the same time is rapidly adopting  
the implements, utensils, and customs of  
the white man. In spite of this fact,  
little or no attempt is being made to  
obtain and preserve records of early cus-  
toms, in the shape of articles of dress,  
hunting, fishing, warfare, means of  
transportation, or objects which, in some  
degree, indicate their religious customs. All  
of these would be interesting, and as the  
years roll by, will become of greater  
educative value. A great many who  
are memorialized by his writings, his cus-  
toms, or other lasting works, but the  
life and customs of the Eskimo will be  
memorialized only by those articles made  
and used by him.

Now is the time to construct this mu-  
seum, as well as to obtain the records of  
the life of which a future memorial  
will be constructed. It is not for us to  
wait until he has passed out, or to wait  
until he has adopted ways of fishing,  
hunting, living, and even worshipping  
from the white man.

It is true the National Museum at  
Ottawa has obtained much through the  
recent Arctic exploration expedition,  
and from earlier explorers, with which  
to build a lasting national museum of  
the Eskimo.

Alberta includes the National highway  
to the Arctic, and Edmonton is the  
nearest city to the happy fishing ground  
of the Eskimo. It is therefore fair to  
assume that within Alberta would be  
preserved many relics which would be  
of historical value, relics from the Es-  
kimo. There may be many private collec-  
tions of Eskimo curios, but these can be  
seen and studied only by a few casual  
fortune hunters. A great benefit  
could be obtained from such a collection  
as this, stored in a public institution  
where the public has the privilege to  
visit at any time.

The University of Alberta has started  
such a museum, and it is hoped that  
other material will be added to this  
collection shortly. This exhibit, which is  
now in the Geological Museum in  
charge of Professor Allan, is so arranged  
that it can be seen at almost any time  
by the public. This Eskimo exhibit,  
though still small, consists of many re-  
presentative articles from both the  
Coronation Gulf Eskimauk and from  
those of Herschel Island. The former  
collection, which is the larger, was do-  
nated by Mr. J. Hornby, who has spent  
some years among the Eskimauk, and  
is now in Arctic lands. The latter was  
presented by Dr. Wilson, who has spent  
some time among the Herschel Island  
Eskimauk.

This exhibit consists of various fishing  
and hunting implements made from  
bone, hide, drift wood, and from native  
copper, which is found in extensive de-  
posits on the Coppermine River. Some  
of the native copper, bows, and  
copper-pointed arrows of different de-  
signs for different kinds of game, drift  
needles, horn dishes, skinning knives,  
saws of beaver teeth, and many other  
implements are also included. The  
Herschel Island Eskimauk appear to  
differ markedly from the Coronation  
Gulf Eskimauk in that they have made  
use of metal and pieces of wire in man-  
ufacturing their fishing implements. These  
articles can be more readily obtained  
from white men at this point. It is to  
be hoped that increased interest will  
be taken in the Eskimo, and that an attempt  
will be made to procure much material  
of value from this fast decreasing race.  
—EX.

### How to Arrive at

### Your Income Tax

First, take your income.  
Add wife's income.  
Divide by your eldest son's age.  
Add your telephone number.  
Subtract your auto license number.  
Add your electric light bill.  
Divide by number of kilowatts.  
Multiply by your father's age.  
Add the number of gold fillings in your  
teeth.

Add your home number.  
Subtract wife's age (approximately).  
Divide by the number of aunts you  
have.

Subtract the number of daughters.  
Multiply by the number of times you  
have gone up in a soaplane.  
Subtract your best golf score.  
Add a pinch of salt.  
And then go out and  
Borrow the money to pay the tax.

### The Overalls Fad

In the cry against high prices and the  
encouraging of all sorts of fads to try  
and regulate this high cost of living,  
the public should remember that most people  
are getting more money and easier than  
ever before. If a suit of clothes costs  
twice as much today as it did five years  
ago the average buyer of clothes charges  
twice as much for what he sells, or for his  
labor, or professional services, and when  
this wearer of "fine linen" steps into  
his "overall," he is carrying on a  
"fad," that will put the poor man's  
clothing at such a price that it will be  
away beyond his price.

Let all unite to get a dig at the pro-  
fessor, who helps keep up this high cost  
of living, but in order to do so he should  
be careful that we do not make the  
position of those, not so well conditioned  
as ourselves, worse than before.

A contemporary pertinently says: "If  
you want to save money on clothes,  
wear your old clothes. If you old clothes  
are all worn out buy overalls. If you  
don't need them you are simply putting up  
the price of overalls on the man who does  
need them. Your Yankee cousins are all  
right, but they are a volative mixture  
of races who go to extremes—while some-  
times is a good thing and sometimes is  
not."—EX.

### France's Position In Regard to Germans

PARIS, FRANCE, May 1.—France ap-  
pears to be well satisfied with the results  
at St. Germain. Two questions were con-  
sidered—Turkish and German. In both  
France made concessions, but it is felt  
that the reinforcement of the alliance in  
the face of Germany is more than com-  
pensated.

Regarding Turkey, France considers  
that in view of the Anglo-Greek entente  
the maintenance of Greek forces in  
Thrace and Asia Minor practically de-  
fines control of the Balkans to Great  
Britain. Further, it is considered that  
the British government holds the present  
Turkish government in Constantinople  
tightly under its thumb, but that by this  
arrangement the strategic position of  
Greece becomes precarious.

Greece will have to guard herself against  
the Turkish nationalities in Asia Minor  
and against the Bulgars in Thrace. Al-  
ready there are signs of an approaching  
Serbo-Hungarian combination against Greek  
aggravation.

France fears that the Turkish treaty  
is full of future trouble, but she shrugs  
her shoulders. Her real interest is in  
the German question.

Having been prominently rumored, the  
French had no intention of annexing  
German soil and that the French move  
against Germany was inspired solely by  
a determination to enforce the treaty of  
Versailles. Prime Minister Lloyd-George,  
perhaps also under the pressure of British  
public opinion, which has been rather  
favorable to France, has been obliged to  
concede the principle that the occupation  
of territory is the one real guaranty  
against bad faith on Germany's part.

Thus not only is the French occupation  
of Frankfurt-on-Main considered just-  
ified, but the Allies want Germany that  
they will occupy additional territory if  
Germany continues to ignore the terms  
of the treaty. This is a decided success  
for Premier Millerand's policy and has  
created an excellent feeling throughout  
France.

Regarding reparations, however,  
France yielded to the British and Italian  
point of view. The German premier is  
summoned to Spa, Belgium, and an  
effort will be made to fix the total sum  
due without more delay.

The French originally figured this  
sum at about 475,000,000,000 gold  
marks (\$117,750,000,000). They argued  
that even if Germany were unable to pay  
this sum her indebtedness should, never-  
theless, be established in principle.

The other allies, however, feel that  
to make the sum too great or to leave it  
too indefinite will simply paralyze Ger-  
many, with the result that the Allies  
will actually get less than if they had  
made more moderate demands.

On this idea, it is apparently proposed  
to set the reparations total at about 50,  
000,000,000 marks in gold (\$22,500,000,  
000), payable in thirty annual instal-  
ments.

Some of the French newspapers are  
criticizing this arrangement. When the  
part due to Belgium and the money due  
for the Allies' occupation are deducted  
from the annual 3,000,000,000 marks  
(\$750,000,000), what they ask will re-  
main for the restoration of northern  
France.

Paris, France, May 3.—France does  
not desire Germany's economic ruin.  
France realizes that Germany's pros-  
perity is necessary to the prosperity of  
Europe. Premier Millerand has made  
these statements in public several times.  
He has now reached an agreement with  
Dr. Goepfert to open economic negotia-  
tions with Germany. The conference  
probably will be held in Paris at an early  
date. The following details of the French  
government's economic policy since Ger-  
many are from an authoritative  
source.

In the first place, Germany must dis-  
arm, must cease discrimination against  
France, abandon its present attitude of  
"tense desperation" and show a dis-

### Stop, Look, Listen; Use More Care

### Tons of Steel are Harder to Stop Than Any Motor Car Made

Careless and thoughtless driving of  
motor cars have cost the lives of many  
people and millions of dollars damage  
since the auto came into general use in  
the United States and Canada. The  
railroads of both countries have been

position to except the treaty in good  
faith. As soon as this disposition be-  
comes apparent the French government  
will be only too glad to open negotiations  
for the benefit of both countries, and will  
make the necessary concessions even to  
the point of modifying some of the  
treaty's economic clauses.

REAL PEACE CALLED NECESSARY  
Premier Millerand, realizing perfectly  
that the world needs German produc-  
tions, that German workmen must be  
given employment—to rescue the country  
from continued disorders, that the present  
situation in which France and Ger-  
many are plunging at each other like  
dogs is impossible and that real peace  
must be inaugurated. France, indeed, is  
more interested than in any other country  
in establishing a lasting peace with Ger-  
many, but at present Germany is not  
willing to accept the terms of the treaty  
even those clauses of the treaty which are  
easily executable, but is waging a little  
commercial war against France in de-  
fiance of the Versailles treaty which pro-  
vides that for several years Germany  
shall treat all the allies commercially on  
a basis of equality.

In the matter of imports the method  
devised by Germany for discriminating  
against France is first to establish abso-  
lute prohibition of imports and then to  
grant special import licenses to certain  
individuals or groups exclusive of the  
French.

In the matter of exports, it is alleged,  
the German government interfered re-  
cently to keep German exports from  
fulfilling their contracts with French  
buyers or to double or triple the con-  
tract prices.

If the Germans refuse to change their  
present attitude France will retaliate.  
It is doubtful if the German industries  
can get along for example, without  
French iron, which lately has been ship-  
ped to them in large amounts. Premier  
Millerand is sincerely disposed to lay  
the foundations of a real peace with Ger-  
many if Germany will disarm and observe  
the treaty. It is simply up to Germany.  
At the same time France wishes it un-  
derstood that she has no intention of ul-  
timately discriminating against the Allies  
in Germany's favor.

### NOTICE

NOTICE IS HEREBY GIVEN THAT  
the Blaimore Veterans' Club intends to  
apply for a license to operate a pool room  
at Blaimore, Alberta, in the premises  
formerly known as the Lethbridge Brew-  
ery Block. This application has been  
approved by the Mayor.

BLAIMORE VETERANS CLUB,  
Applicant.

forced to pay out large sums of money  
in damages.

It should be remembered by all driv-  
ers of motor cars that a train has the  
right of way and that a motor car has  
a certain amount of freedom in this regard.  
It should be remembered that a motor  
car can be stopped within a few feet  
if it often takes far more than one  
hundred yards for a train to stop. Al-  
ways look before crossing a railroad and  
be sure to approach the crossing at a  
speed such as allows you perfect con-  
trol of your machine.

The growing list of fatalities from  
motor cars is alarming. In the United  
States it has reached such a stage that  
the public is crying out against it and  
in some cities some novel plans of  
punishment have been put in force. In  
Chicago speeders are sentenced to make  
a slow trip through the morgue under  
the guidance of a deputy coroner. In  
Yonkers, N.Y., speeders are sentenced  
to hold watch beside the dead body of  
their victim or at the hospital bedside of  
the injured victim. New York City  
makes the speeding car through practically  
the same procedure on arrest that they  
would do if the most daring criminal.  
Photographs and finger prints are taken  
and a "rogues" gallery is maintained.

### GRAND JURY REPORT

St. Louis gives a splendid example of  
how serious the public are considering  
this question. In this city a grand jury  
was in session for four months and two-  
thirds of a lengthy report submitted  
dealt with recommendations for the  
safety of the citizens of the city.

Undoubtedly much of these facts bear  
on accidents on streets of different cities,  
nevertheless, it shows how public opin-  
ion is shaping in the United States in  
regard to careless drivers. There is no  
reason in the world why a driver of a  
motor car cannot proceed along a city  
street or country road with full control  
of his machine. Automobiles are built  
for business and pleasure and not for  
the purpose of killing people, but they  
are not fool proof and probably never  
will be.

The Chicago Tribune, "printed an  
editorial recently as follows: "To em-  
phasizing the great number of deaths  
and injuries caused by motor car ac-  
cidents The Tribune is trying to bring  
home to the average motorist that a  
great majority of mishaps are the result  
of carelessness."

### PEDESTRIAN CARELESS

"It is an aphorism that an automob-  
ilist must not only watch himself, but  
the other fellow as well. Drivers often  
are victims of the carelessness of others.  
And this is just as true of pedestrians as  
motorists."

Too many pedestrians fail to observe  
the simple precaution of "stop, look and  
listen." Too many pedestrians insist on  
personal privilege to the point of  
disastrous collision with an automobile.  
A motorist may plainly be beyond his  
rights by speeding, by thrusting his car  
over a crossing, or by driving on the  
wrong side of the road. The fact that  
motorist is guilty of gross law violation,  
hardly compensates the pedestrian who  
persist in martyrdom to establish the  
legality of his position and the lawless-  
ness of another.

## Scientifically Right Artistically Correct

The best designers in the country make  
Columbia Grafonolas. Their acoustic de-  
sign is as scientifically right as their cabi-  
nets are artistically correct.

Their acoustic design permits the full,  
free development of the sound waves and  
gives them a tone of exquisite clearness and  
purity.

The grace and beauty of their cabinets  
make it certain that any Columbia Grafto-  
nola will harmonize perfectly with any de-  
sign of furniture.

**Foster's Weather Forecast**

Warm waves will reach Vancouver May 5-12; 16, 20 and 24, with rise on all the Pacific slope will cross crest of Rockies May 6, 13, 17, 21; plains about 18, 22; meridian 90, great upper lower Mississippi and Ohio Tennessee valleys 6, 15, 19, 23; great lower, and eastern sections 9, 16, 20, 24, rising vicinity of Newfoundland about 10, 17, 21, 25. Storm waves will follow about one day behind warm waves. Cool waves about one day behind warm waves.

These disturbances will control the weather of North America from May 6 to near May 25, and include most important period of 1923. Storms to cross meridian 90 near May will be more severe than usual and cause very considerable rains in the middle Mississippi valleys and about both upper and lower great lakes. The storms to cross meridian 90 near May 25, will cause great floods in some parts of sections mentioned for heavy rain following May 15. These will be dangerous floods.

During the weeks centering on May 15, and 25 I expect very considerable damage by hail in some of the places where hail storms sometimes occur in May. I particularly warn everybody in the sections mentioned that there is great danger of tornadoes during these great storms. Don't go out on the lakes or ocean waters during these great storms, if you do you may never come back.

# Millions Involved In Merging of Big Steel Interests

Montreal.—Directors of the Canadian Steamship Lines, Limited, the Nova Scotia Steel and Coal Company, and the Dominion Steel Corporation, received and considered the proposals made by the interests behind the \$500,000,000 steel, coal and shipping organization to be known as the British Empire Steel Corporation, and formally consented to the transfer of securities involved, subject to the consent of the shareholders of the three interests which are to form the Canadian nucleus of the big consolidation.

According to the statement issued by Col. W. Grant-Morden, the terms will be ready for publication in a day or two, and special general meetings of the companies involved will be called in the near future.

Col. Morden stated that the initial share capital issue of the new corporation will be \$205,000,000, but declined to state into what amount of first, second and third, preferred and common stocks would be divided.

In addition to the three companies mentioned above, the consolidation would embrace the Halifax Shipyards Company, the Davis Shipbuilding Company of Lewis, the Port Arthur Shipbuilding Company, together with the latter's Kingston subsidiary, the Maritime Land Company of St. John, N.S., and possibly several other allied industries.

## Calgary Editor Honored

J. H. Woods is Made Chevalier of the Order of Leopold

Calgary.—J. H. Woods, editor and managing director of the Calgary Herald, has been created a chevalier of the Order of Leopold by King Albert of Belgium, and on behalf of his majesty the star of the order was presented to him by H. DeBurlit, Belgian consul at Calgary, at a public ceremony. The honor was conferred on Mr. Woods because of his signal services during the war as the secretary-treasurer of the Belgian relief committee for southern Alberta. Addresses were made at the ceremony by Mayor R. C. Marshall, and A. Allen, the chairman of the Belgian Relief Committee, and Mrs. Harold Riley of the women's auxiliary of the committee.

## Attempted Bank Robbery

Ottawa.—La Banque Nationale at Gaiacque Point, about three miles from Ottawa, was entered by robbers, and although persistent attempts were made to open the safe in the office, the burglars departed with very little booty. The safe baffled all attempts at opening and although the robbers managed to damage the hinges, the door could not be opened. It is believed the effort was made by residents of the district.

## Close Victory Loan Transfer Book

Ottawa.—Notice is given by the finance department that on account of the interest payments due June 1, the transfer books of the 1915-25 war loan and the 1917 Victory Loan will be closed from April 30 to May 31 inclusive. Bonds which are received at the department for transfer after April 30 will not be transferred until after the opening of the transfer books on June 1.

# Great Changes In Britain Are Wrought by War

Atlantic City, N.J.—Changes have been wrought by the war in Great Britain which "almost deserve the title of revolution," said Sir Auckland Geddes, British ambassador to the U. S., in an address before the annual convention of the United States Chamber of Commerce. "Vast new classes have been enfranchised," he said, and the working classes, strong anti-militaristic, now hold "ultimate political power."

"They seek to limit the nation's power," he said, "to secure tranquility in Asia Minor, in Asia and Africa. Silently and without fuss, the army has been reduced to a strength which many think barely sufficient to police the empire. The people are determined to deal with the terms of dictators."

## Railway Accident

### Takes Heavy Toll

Distressing and Pathetic Scenes Were Enacted in Train Wreck

Near Delhi

Bombay.—"Extremely distressing and pathetic scenes were enacted in the train wreck on the Oudh and Rohilkhand railway east of Delhi, on Saturday, when 150 passengers were either killed or burned to death. Only a few of the large number of women and children on the train escaped unharmed. Several British soldiers were killed or injured. The train was carrying a number of Hindu marriage parties.

As a result of the collision the gas installation caught fire and the flames spread rapidly. The uninjured Indian and British soldiers escaped injury. Those remaining watched helplessly while the screaming victims slowly roasted to death. The medical men aboard the train were totally inadequate to give the necessary assistance. Several British soldiers escaped injury.

After the accident pools of molten silver were found in the vicinity resulting from the melting of the boards of rupees many Indians carry about with them.

## May Redeem Property

Vancouver Court Refuses To Grant Foreclosure Before Opportunity Is Given

Vancouver, B. C.—German holders of Vancouver property will be given a fair chance to avoid foreclosure and the right to redeem, according to a ruling made in the supreme court by Justice MacDonald. Before the war, Countess Mira Dornhoff, Countess Elsa Fomhoff and Count Bigoslav Dornhoff, of Berlin, Germany, purchased an apartment house in this city for \$90,000, paying \$36,000 cash and assuming a mortgage. The amount remaining unpaid amounts to \$22,000, and today a local firm asked for foreclosure. The defendants are asking for delay to enable a defence to be entered, and this the judge was inclined to grant.

## Dwellers In Tents

Winnipeg Mayor In Sympathy With Those Attempting to Fight Housing Problem

Winnipeg.—That he was in complete sympathy with persons desiring to establish themselves in tents and shacks during the summer months to get away from high rents and housing difficulties, was the statement of Mayor Gray recently.

"The city," he said, "should be very lenient with regard to the placing of tents and shacks, particularly on and along the river bank. Citizens should not be forced to comply with all the civic regulations at such a time as this when it is impossible to secure sufficient accommodation."

## Would Mean A Saving

Dunfermline, Scotland.—The Scottish trade union congress has passed a resolution in favour of liquor prohibition.

## Railway Charter Refused

Dr. Reid Declares the Gaspé Line Could Not Be Made To Pay

Ottawa.—By a majority of only two votes, the railway committee of the house of commons has refused to grant a charter to the Pabos and Edmundston railway company to construct a 248-mile road through the interior of the Gaspé peninsula. A number of members, led by Dr. J. D. Reid, minister of railways, took the stand that such a road could not be built and maintained as an independent line; and the government would be almost inevitably compelled to take over the road later on to make it go at least subsidize it.

"The day of subsidies is gone, I think," said Dr. Reid amidst great applause in the committee. He said that the provinces should make themselves responsible for such railway charters as a factor in the development of natural resources.

The vote by which the application was rejected was 31 against 29 supporting.

## Will Evacuate German Towns

Whole German Force in Ruhr District Must Be Reduced to 10,000 by June 10

Paris.—Premier Millerand, in making a declaration to the chamber of deputies on the results of the supreme council meeting at San Remo, said that the Frankfurt and Darmstadt territories would be evacuated by the French as soon as the allied commissions had established that the German armed force over the number allowed by the convention of August 1919, had been withdrawn.

"The whole German forces in the Ruhr region, the premier declared, must be reduced to 10,000 men by June 10 next, and by July 10 all the German soldiers must be withdrawn and replaced by a police force of 10,000 men.

"I said at San Remo," M. Millerand continued, "and I repeat it here, now, that it is a crime and stupidity to believe that France desires to annex any fresh German territory."

"The details of the treaty with Turkey cannot be divulged before Turkey's plenipotentiaries come to Paris on May 10, but I can say that the treaty is in conformity with the outline already made public, the Turks being maintained in Constantinople and in the territories in which they are in the majority."

"An appeal has been sent to President Wilson asking him if his country cannot take up the mandate for Armenia, at least to collaborate in the fixing of the frontiers of the new state."

In conclusion, M. Millerand declared that upon leaving San Remo, the allies were more united than ever.

"If I may be permitted to say it, especially the entente between France and her sister of the Latin race is closer than ever," he said.

The premier's remarks received great attention, but no enthusiasm was displayed in the chamber.

## Cost of Victory Loan

Canvassers Were Paid Million Dollars in Commissions

Ottawa.—A total of \$110,402.37 was paid out by minister of finance in commissions to canvassers and brokers who handled the last Victory Loan. These fees ran proportionally higher in Quebec province than elsewhere; \$352,952.17 was paid on this head in Quebec, representing 22 per cent of the total subscriptions to the loan. In Nova Scotia \$57,375 was paid out, or 20 percent of the subscriptions. In Saskatchewan the figure was \$38,900, or 18 percent; in New Brunswick \$27,500, or 17 percent; in Ontario \$338,670, or 15 percent; in Manitoba \$54,200, or 13 percent; in Alberta \$19,150, or 11 percent; and in British Columbia \$22,455 or 6 percent. Prince Edward Island did not cost the federal government anything in brokerage or commissions.

Canada's Assets Have Increased

Ottawa.—A return tabled in the house of commons shows that Canada's total assets at the end of 1919 were \$1,087,537,461.27, on this the country received an interest of \$15,732,775.29 or 1.46 percent. This rate was more than twice as high as in 1918, when the country received an interest of \$7,421,001.58, on total assets of \$1,102,104,692.33.

## Thrift Conference

Calgary.—The first Dominion thrift conference will be held in Calgary on June 3, 4 and 5. Every women's organization in the country and the federal and provincial governments are being invited to send delegates.

W. N. U. 1314

## Treaty to Be Discontinued

French Trade Treaty Will Cease to Have Effect on June Nineteen

Ottawa.—Mr. Fernand Rinfret (St. James), was informed in the house that notice had been given of the intention to terminate the trade treaty between France and Canada. This would cease to have effect on June 19 of this year.

Mr. Rinfret was also informed that the government was aware that customs officers in Canada estimate the customs duties according to the nominal value of foreign monies and not in accordance with the current exchange rates.

The government had no intention of changing this practice.

## Japanese Massacred

Warships Are Rushed to Eastern Siberia With Troops

Washington.—Japanese guards in the district of Nikolaevsk, eastern Siberia, have been believed to have annihilated and several hundred Japanese residents, including the Japanese consul there, massacred, according to an official statement issued by the Japanese foreign office, and made public today by the state department.

The Japanese statement says the suspension of communication with the district rendered it impossible to get at the real state of affairs, but it was evident that a serious upheaval had taken place. Efforts of the Japanese to despatch military relief expeditions into the district had failed because of the ice. Meantime, however, the Japanese have sent an expedition to Alexandrovsk, accompanied by the warships Mikasa and Mishima. The force reached their destination on April 22 and found the Japanese residents in that district safe. Most of them were taken aboard the Mikasa.

## Lord Mayor of Dublin Returns

Released from Wormwood Scrubs; But Was Threatened With Rearrest if He Returned

Dublin.—Tom T. Kelly, lord mayor of Dublin and Sinn Féin member of parliament, who was released from Wormwood Scrubs prison in England because of ill health, has returned to Dublin. It is said that he will not be able to take office because of the effects of his incarceration.

He had been under arrest since May 25, 1916, on charges growing out of the Irish revolt of that year.

A despatch from London February 17, said Kelly's release was due to his state of health. Order of internment, it was added, was not revoked, and it was stated that Kelly was informed he would be arrested again if he made attempt to return to Ireland. During his convalescence Kelly was ordered to report his movements to the authorities.

## Make Increased Demands

Advance in Wages of 25 Percent Is Demanded by the Winnipeg Building Trades

Winnipeg.—Demands for a straight increase of 25 percent in wages was made by the carpenters' union, made before the public meeting of the provincial fair wage board held today. General dissatisfaction was expressed against the proposed schedule of wages arrived at by the board. A Cameronian of the carpenters' union, made the declaration that unless more wages are granted the building trade workers of the city, there will be a general migration to the States and other centers where the wages are higher and the cost of living lower. It was claimed that the costs of living had increased 133 percent since 1914, by delegates to the meeting of the board. Working on this basis the general rate of wages should be \$1.50 per hour instead of around \$1.25.

The fundamental cause for all strikes, said James Winning, former president of the Trades and Labor council, is the long time that is taken by various boards in conducting negotiations on striking at some decision. He objected to the fair wage board making its findings public until after the builders' exchange has presented its schedule to the workers.

## Protest Against Canadian Cattle

The minister of agriculture received another influential deputation protesting against the permission given some time ago for the importation of a hundred Friesian cattle from Canada and expressing fear that the importation of other breeds would be sanctioned. The deputation was told that the reasons were exceptional and a strict quarantine would be imposed, and assured that there was no intention of relaxing the restrictions against stock cattle.

# Villainous Plot Is Uncovered By U. S. Officials

## Germany Is Pleased

Invitation to Attend Conference Is Welcomed As A Token of Equality

Berlin.—The invitation extended by the supreme council to the German government to send representatives to the conference is viewed by George Bernhard in the Vossische Zeitung as a signal improvement in Germany's diplomatic position. "Germany thereby being delivered from the shackles of the 'enforced isolation'."

"The cooperation of Germany, and France and Belgium will form the nucleus of a next active party to work out a European confraternity," he adds. The semi-official Allgemeine Zeitung discussing the destruction of war material under the treaty in state arsenals and about 25,000 private workshops, expresses the hope that the Entente will relax demands for surrender of all remaining waste material which now constitutes virtually the sole raw material for keeping the iron and steel foundries in operation, since the supplies of ore from Lorraine, Luxembourg and other places have ceased.

Dr. Adolf Koester, minister of foreign affairs, in an interview published by the Allgemeine Zeitung, said he welcomed the Entente's invitation to Germany to send representatives to the conference at Spa.

"We presume," he added, "that the negotiations will be between two parties equally convinced of the necessity of firmly reconstructing Europe and we hope to show our former opponents that we have the earnest wish to fulfill the treaty to the utmost limit of our capacity."

Dr. Koester regrets that the statement of the allied governments did not mention the occupation of Frankfurt and the Main district; since the number of troops in the neutral zone was now only 17,000, which was allowed by the agreement of 1919.

"In these circumstances," he continued, "the occupation of the Main district is superfluous. Consequently we have instructed the president of the German peace conference delegation to ask the ambassadors' conference when the illegal operation of the Main district will terminate."

## Fiume Again Blokaded

Communications to the Town Have Now Been Completely Severed

Trieste.—The blockade which Fiume is now undergoing is admittedly the most severe to which it has been subjected. The communications of the town have been completely cut off, regular Italian troops taking up sections of the railway and bringing up numbers of machine guns to guard the frontiers. Passage in and out of the city is absolutely forbidden, not even milk going in, and connection with the outside world by the sea route has been completely severed. Gabriele D'Annunzio, the insurgent commander-in-chief, is threatening counter action.

## To Relieve Prussians

Berlin.—The German committees at San Paulo, Brazil, have sent to Field Marshal Von Hindenburg a gift of 321,842 marks for the relief of the East Prussian population.

# Not Concerned About Internal Affairs of U. S.

London.—The United States senate resolution was brought up in the house of commons and drew several pointed questions. Ronald MacNeil, Unionist member for the Canterbury division of Kent, asked the government would be demonstrated more impressively by overlooking the reported demonstration for independence by the three and a half million inhabitants of the Philippines, than by passing resolutions in the senate expressing sympathy with the cause of Irish independence, and whether "as a mark of respect for the Americans," the house of commons would be enabled to follow the precedent set by the senate by moving a resolution in sympathy with the Philippine demand for self-determination.

Andrew Bonar Law, replying for the government, said he had no information on the question, which did not seem to be one in which the British government was concerned.

Numerous other requisitions followed, and Sir Edward Carson, the Ulster Unionist leader, asked whether it was not better for each country to leave the other alone.

Mr. Bonar Law replied he thought that, in other words, it was his answer.

## Washington.—Plots against the lives of more than a score of federal and state officials have been discovered by the department of justice as part of radical May Day demonstrations.

Assassinations and assaults, Mr. Palmer said, were included in the May Day program organized by the communist Labor Party and other radical elements, and were in addition to the strikes and other disturbances intended by the radicals as an effort on behalf of peace with Soviet Russia.

State officials marked as victims were notified by the department. The department has information, according to the attorney-general, that the instigators of the May Day demonstrations here have been working "in direct connection and union" with the leaders of disturbances in other countries, and were in addition to the strikes and other disturbances intended by the radicals as an effort on behalf of peace with Soviet Russia.

All the propaganda, making May Day disturbances, referred to "inhuman treatment" of the Soviet government of Russia by the United States and the Allied powers, Mr. Palmer continued. In foreign sections of industrial centres appeals for "peace with Russia" have been displayed as the main method in stirring up dissatisfaction with this government.

The Communist labor party also sent numerous personal emissaries to cities where the field was deemed ripe. These men have been under constant surveillance by Federal agents, and it was through their activities that the government was first able to establish definitely the aim of the group for May Day disturbances.

Strikers Appeal to King George  
Resolution is Sent to His Majesty on Behalf of Convicted Winnipeg Leaders  
Winnipeg.—King George has been appealed to by the labor leaders' defence committee for the release of the convicted strike leaders.

A copy of a resolution passed at the recent convention has been forwarded to His Majesty and copies have also been sent to the minister of justice and the governor general of Canada. "In the resolution it is claimed that the trades unions of the city were the victims of the strike and therefore responsible for the same. There was no intention whatever to overthrow the existing forms of government and that an injustice has been done to labor and the men convicted."

Make Own Arrangements  
Victoria.—Pilots here claim they have not been informed of the government's decision to declare open pilotage in British Columbia waters after May 6. In that event they are prepared to carry out their own organization for will make their own arrangements with the shipping interests.

Potato Boycott  
Stratford, Ont.—Some three hundred women at a meeting in the city hall pledged themselves not to buy any potatoes for one month unless offered at \$3 a bag.

## Of Local and General Interest

Miss J. Sheard is spending a holiday with friends at Lethbridge.

Mick Kialik was fined \$250 and costs for operating a still at Hillcrest.

Miss B. Baird returned on Friday morning last from a visit to Regina.

The Poggiali cases are still in abeyance and will likely be heard tomorrow.

Some folks looking for comfortable chair pers here never hope for comfort hereafter.

A meeting of the Teachers' Alliance was held at Bellevue on Saturday afternoon last.

We received a love letter from our old girl, Mike Rose, on Sunday last. Mike is bathing at the coast.

Mr. Lee, of Coleman, went to Lethbridge on Saturday last, to arrange for a high school term for his son.

Speaking of "Bluebeard" Watson a few days ago, a charming local young lady remarked: "I'd like to have met him!"

Approximately eight hundred thousand motor trucks are operating in the area from the Atlantic ocean to the Pacific.

An advertisement in one of our exchanges reads: "Don't forget the navy league dance on May the 14th. Proceeds go to the swimming pool."

The football game between a team from the R. C. M. P., Macleod, and Bellevue miners, on Saturday evening last, resulted in a win for the Bellevues to the tune of 2 to 0.

The Summit Hotel at Cross' Nest has been leased by James McCool to a former C.P.R. employee, who hopes to make good with this popular Summer resort this year.

General Pershing kissed more than a score of pretty young Balboa girls in the course of his inspection of Panama canal activities, afterwards presenting them with a cup as a reward for war work.

Andrew Walker, a Christian scientist, was found guilty of manslaughter by a jury in New Jersey, for failing to provide medical treatment for his nine-year-old daughter, who died a year ago with what physicians diagnosed as nasal diphtheria. The girl had been provided with Christian Science treatment.

Seven new ministers were graduated at the Alberta Methodist College recently. Only six will enter the Methodist ministry. The seventh, in the person of Fred W. Benke, will enter the Baptist ministry, having taken his training from the joint Methodist and Presbyterian teaching staff with service in his own denomination in view. This practical form of co-operation in church work is regarded as somewhat unique, but a hopeful sign of what may some day be in general favor.

George Allen, of Philadelphia, whose seventy years have filled his hair with silver and his hands with gold, fumbled in his pockets and blushed with confusion just as you'd expect of a young man of twenty whose heart ailment has but one cure. Miss Lillian Krause, of 27, dark of hair, with smiling blue eyes, winsome figure and appealing voice, blushed too, and supposed they might as well tell everything, and almost stammering in his embarrassment, Mr. Allen talked of the magnificent estate, Green Gables, at Spring Lake, N. J., which is one of the bridal gifts to Miss Krause, daughter of a famous riding master of New York. The marriage takes place very shortly.

Miss McKay, of Coleman, spent the week end at Macleod.

Lethbridge city council will likely ban Sunday funerals.

Salt added to water in which glasses are washed helps to brighten them.

Sunday last being Mothers' Day, all the old bachelors and maids celebrated.

Tom Longboat, famous long-distance runner, will start farming in Saskatchewan.

Miss Ferguson, of Macleod, is spending the week with her sister-in-law, Mrs. Ferguson, here.

It may be better to give than to receive, but few of us are in a position to keep it up indefinitely.

A halibut, eight feet in length and weighing 170 pounds, was caught near Port Alberni recently.

Call at Humble's store, Bellevue, and see the freak animal that was captured on the top of Turtle Mountain.

Graham's pool room and bowling alley and barber shop at Bellevue is one of the brightest institutions of its kind in the Pass.

A man named Dam died last week in a little Alberta town, and a newspaper comes out with the obituary article headed "Dam Dead."

Arthur Roberts was up from Champion on Tuesday, looking over the field here for a gent's furnishing business with his brother.

An increase of \$120,000 a year in school teachers' salaries is provided for in the new wage schedule now being considered by Vancouver school trustees.

TO LEASE or on half shares, half section of land close to Lundbreck, Alta. About seventy acres broken. Apply to A. J. Smith, Blairmore, Alberta.

The Girls' Mission Band will hold a meeting at the Union church on Saturday from 3 to 4 p. m. — Gwen McDonald and Eleanor Turner, press secretaries.

The locomotive of a freight train on the Canadian National railway plunger over a bridge into the Nashua river in New Brunswick. The engineer is missing.

The wholesale liquor warehouses in Alberta, that were to have been closed on Monday, have received an extension of twelve days in order to get rid of their stocks.

His Excellency the Duke of Devonshire, governor-general, and family arrived at Quebec on Sunday afternoon from England, on the C.P.R. Empress of France.

The Marconi Wireless Company has offered to construct and maintain a chain of wireless stations linking up every part of the British empire, if the government will accord it full monopoly rights over such a system.

COMING—D. W. Griffith's Colossal spectacle, "Intolerance," a sun play of the ages. This wonderful production will be shown on May 15th and 17th at the Coleman opera house, show commencing at 8 p. m. sharp.

Notice has been given to all game guardians in the province that in future there is to be no more trapping within the forest reserves. Hitherto the forest reserves have been free to trappers on the same terms and restrictions as other parts of the country.

A dance will be given at the Frank pool hall on Monday next.

Miss Giles, of Calgary, spent a few days with Rev. and Mrs. T. Young.

A splendidly-toned piano for sale at a snap. Apply to Enterprise.

The Mothers' Day service at the Union church on Sunday evening last was largely attended.

Mrs. Warren, of Red Deer, is visiting her parents Mr. and Mrs. James Paden, here.

Inspector Lazerte, of the Public Schools department, is conducting an inspection of the schools in The Pass this week.

The local Rebekahs will hold their regular fortnightly whist drive and social at the Oddfellows' hall tonight.

Coleman Tennis Club will give a grand dance in the Coleman opera house on the night of Wednesday, May 26th.

Chief Lawson, formerly of Macleod, passed through here on Tuesday morning enroute to Fernie, where he takes up duties as chief of Fernie's police.

Itinerant peddlers selling photo enlargements and going from house to house have come to be regarded by householders at Lethbridge as a nuisance, and they are asked to procure licenses.

**Mrs. Cash Saving Money** by purchasing her supplies at Thompson's

A grand dance will be given in the opera house on the night of Tuesday, May 18th, under the auspices of local veterans, proceeds of which will provide furniture and pictures for the club.

FOR SALE—Four-room House and Lot, with cellar; house well finished and fenced in. Garden at front and back. Lot 8 in Block 7, House No 15. A snap for cash. Apply to Pete Pistor, Blairmore.

The wheel of a travelling Ford got sore with the rest of the party near Coleman a few nights ago, and dropped off and ran a head on its own hook. It changed its mind after travelling about a hundred yards and came back to apologize.

Mr. R. A. Roberts, of Carmanagay, was in town this week, looking up a location for a gent's furnishing establishment. Mr. Roberts was one of the victims of the big fire at Carmanagay a few weeks ago, which cleaned up the bulk of the business section of that town.

The Redman Fur Traveller will be in town on Friday, May 14th, and will locate for a few days only at the store of E. F. Rahal, where he will have on display the most up-to-date line of furs of every description. Orders will be taken. Call early and make your selection.

"Bluebeard" Watson, who confessed to the murder of seven women, has been sentenced to life imprisonment at San Quentin. Watson is said to be very much disappointed at the leniency of the judge, and since the law did not see fit to take his life he is likely to attempt his escape from prison and take his own life.

to ALLEN and BRUNETTI, MIKE BOLLETT and JAMES PECCO, NATTO and ONEPTO BOVIO, formerly of Beaver Mines, Alberta.

TAKE NOTICE that J. C. Crobin, of Beaver Mines, Alberta, has applied to the Board of Public Utility Commissioners, Alberta, for the cancellation of part of the Beaver Creek Sub-traction according to a plan of record in the Land Titles Office of South Alberta, registration District of Plan No. 498 A.L. and to cause it to appear you Allen, Brunetti, and Mike Bollettink, as interested owners of Lot 10, Block 3, and you James McConnato, of Uberta, Bovio, are the registered owners of Lot 2, Block 3, in said subdivision applied for cancellation of the said Lot 10, Block 3, and you James McConnato, of Uberta, Bovio, are the registered owners of Lot 2, Block 3, in said subdivision. It is hereby notified that the said J. C. Crobin, of Beaver Mines, Alberta, has applied to the Board of Public Utility Commissioners, Alberta, for the cancellation of part of the Beaver Creek Sub-traction according to a plan of record in the Land Titles Office of South Alberta, registration District of Plan No. 498 A.L. and to cause it to appear you Allen, Brunetti, and Mike Bollettink, as interested owners of Lot 10, Block 3, and you James McConnato, of Uberta, Bovio, are the registered owners of Lot 2, Block 3, in said subdivision.
